

# Intro to Google Slides

Presented by Peter Beens  
June 16, 2020

# What Is Google Slides?

- Cloud-based presentation program, used for creating slideshows
- Alternative to PowerPoint

# Some Important Features of Google Slides

- Free
- Available via the web, mobile app (Android, iPhone), and as a Desktop app on Chromebooks
- Designed for collaboration
- Your work is automatically saved
- Includes a revision history
- Can embed slideshow into website and blogs ([example](#))
- Compatible with PowerPoint (for import and export)

# How Do We Get To Google Slides?

- Via Google Drive ([drive.google.com](https://drive.google.com))
- [slides.google.com](https://slides.google.com)
- [slides.new](https://slides.new) (creates a new slide)

Or open the app on your tablet or phone.
