<http://bit.ly/otfcf-screencasting>

“A screencast is a digital video recording of your computer screen and usually includes audio narration.”

Common examples of screencasts are:

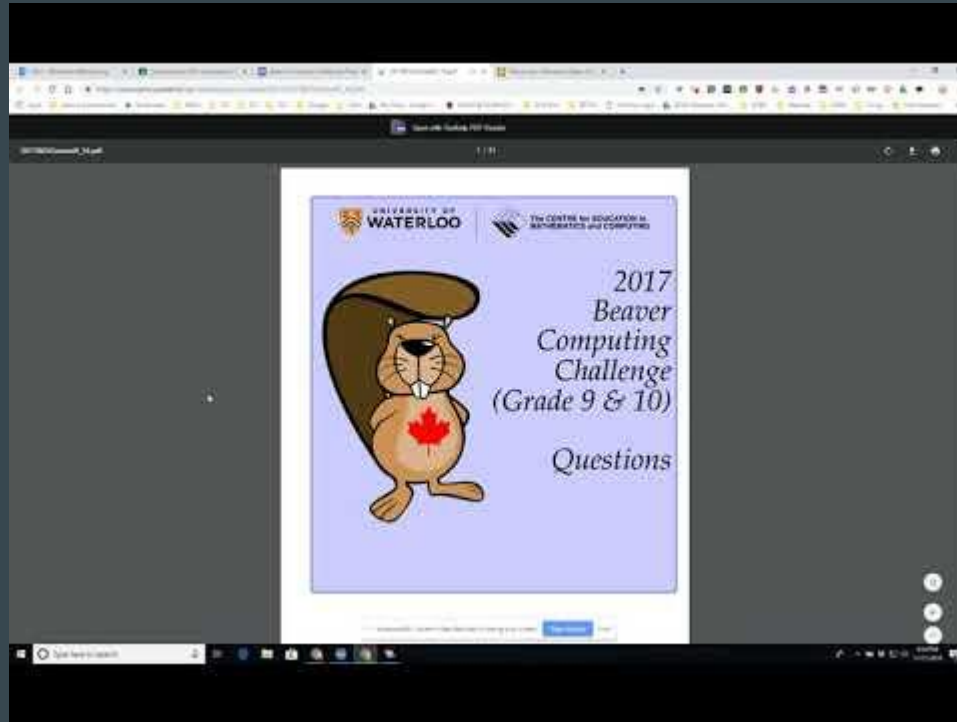

- Video lessons
- Recorded presentations
- Welcome videos
- Lesson supplements (differentiated instruction)

Example Tutorial

Demonstrating a technique needed for the students' ePortfolios.

Example Welcome Video

An overview video made for students competing in the Beaver Computing Challenge at my school.

Differentiated Instruction Example

GOOGLE CLASSROOM APP

If you have a smartphone, please go into the app store (see links below) and install the Google Classroom app. This will allow you to get Classroom notifications which will help you be more successful in this class.

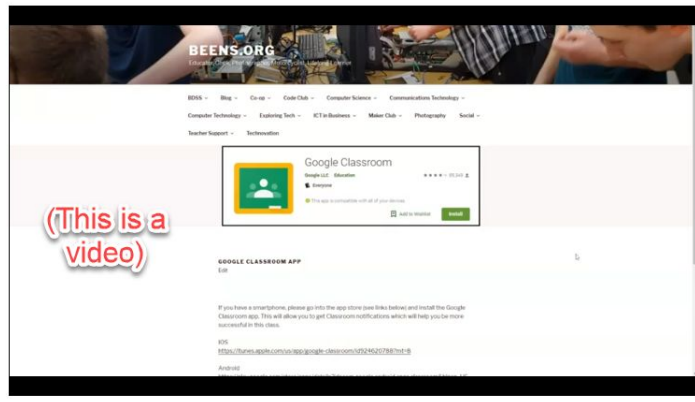

IOS

<https://itunes.apple.com/us/app/google-classroom/id924620788?mt=8>

Android

https://play.google.com/store/apps/details?id=com.google.android.apps.classroom&hl=en_US

I also recommend that you check your school board email account daily for any notifications from Google Classroom, especially to check for any comments I have made on your submissions.

A video explaining the instructions has been embedded at the bottom of the instructions.

Types of Software

Chrome Extensions (freemium)

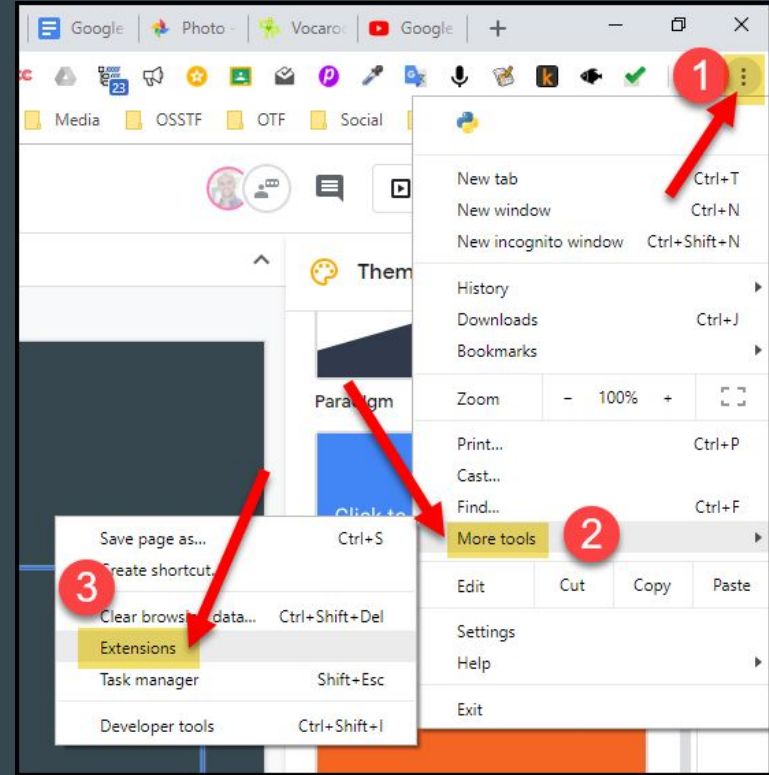

- Screencastify
- Screencast-O-Matic

Programs (*mostly used editing or supplementing screencasts*)

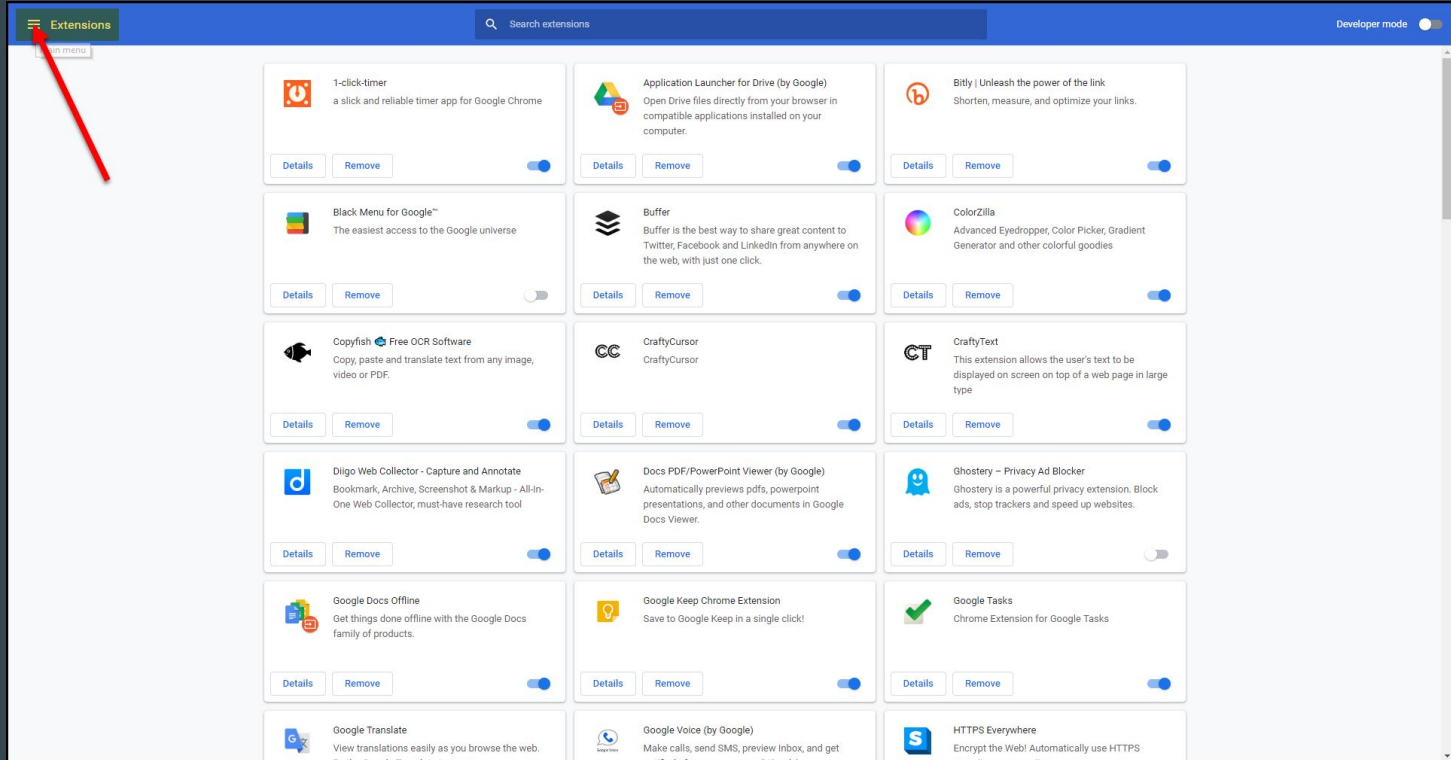

- ACDSee Video Studio
- Camtasia (*Peter's choice*)

Activity - Install Extension 1/4

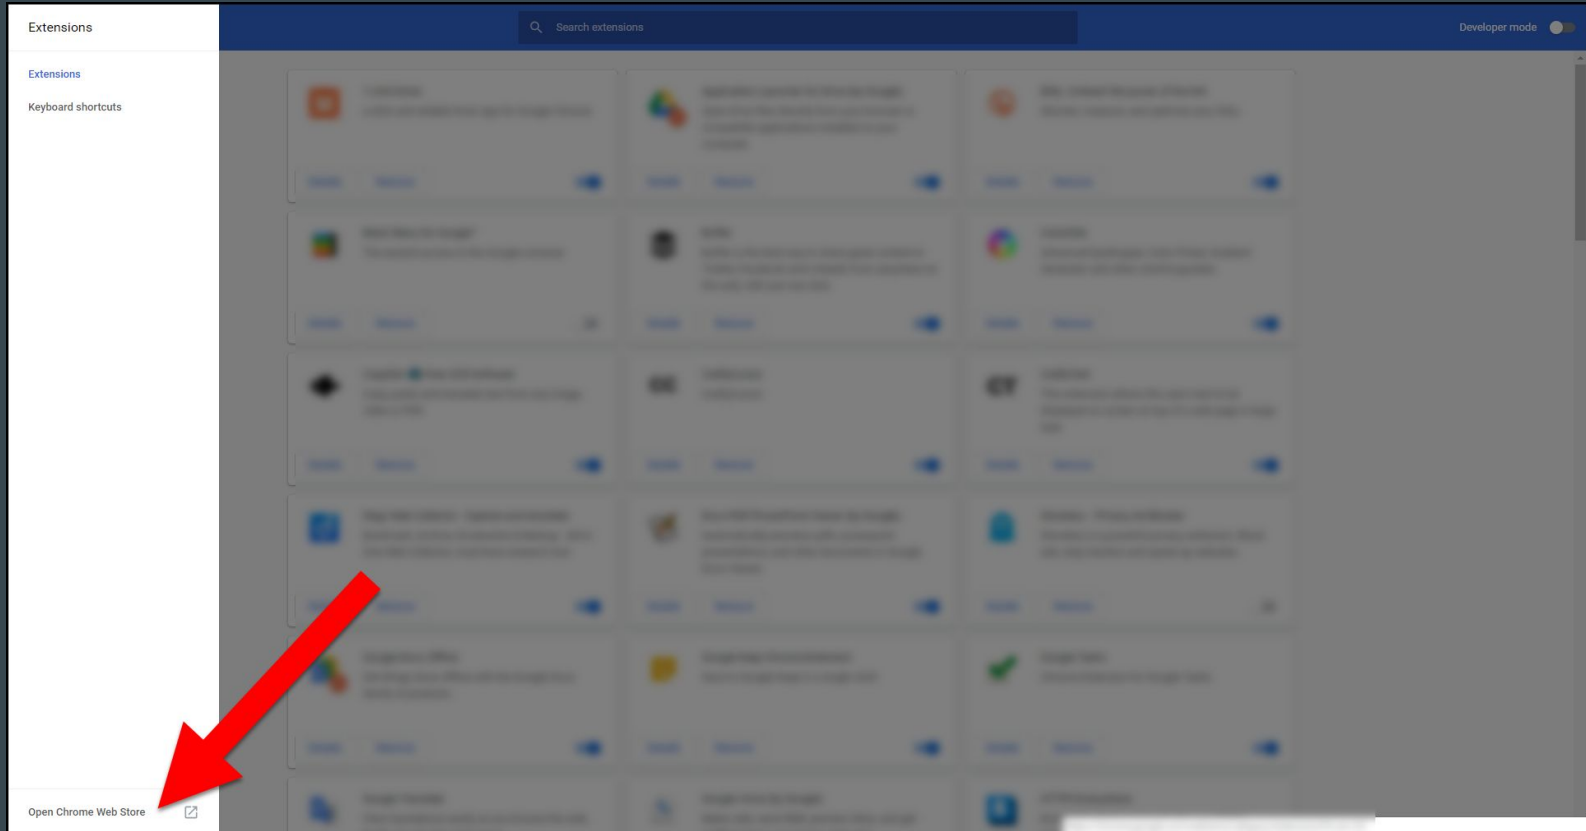

Let's start by installing
Screencastify or
Screencast-O-Matic
(your choice)

Activity - Install Extension 2/4

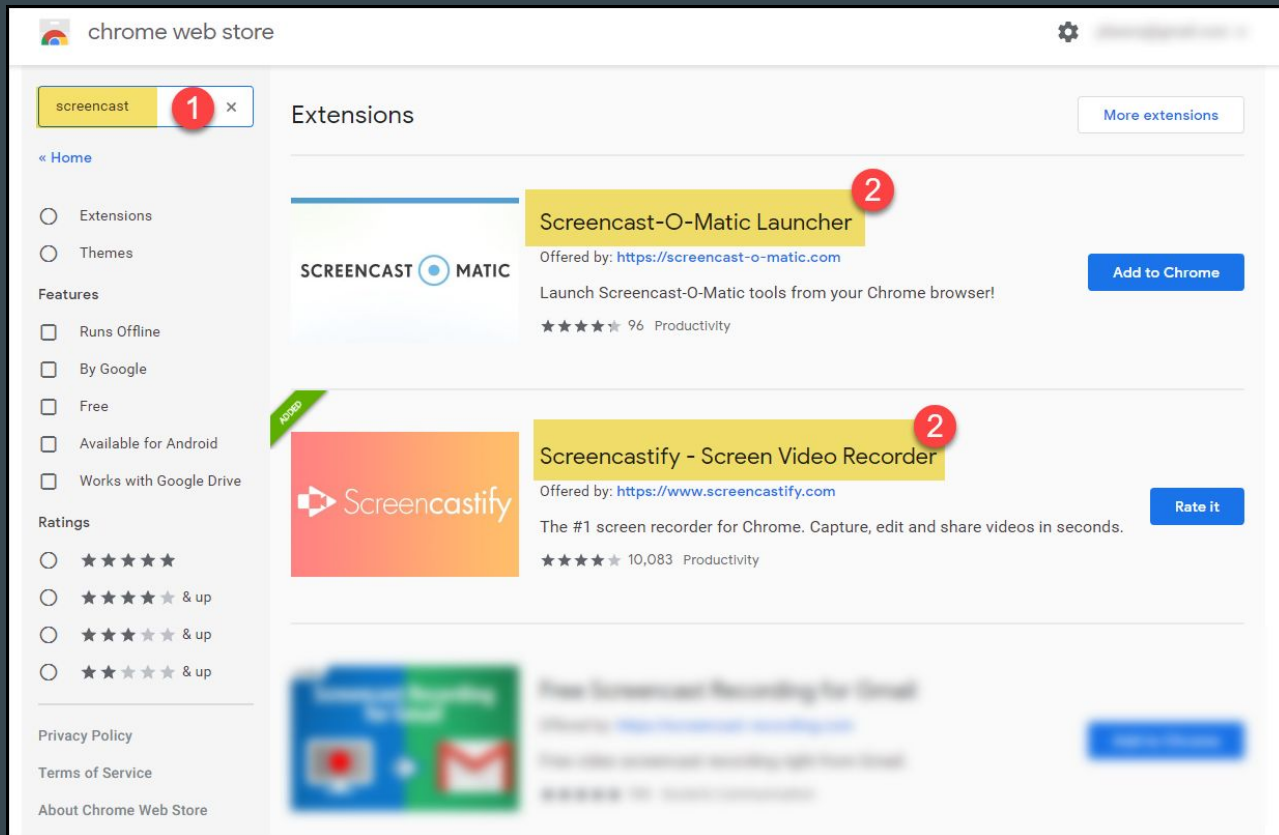

Activity - Install Extension 3/4

Activity - Install Extension 4/4

Search for
“screencast” to
get the results
you want.

You decide
which to install!

Activity - Explore Options!

NEW EBOOK!

50 Ways To Use Screencastify in the Classroom

The ultimate teacher's guide to screencasting.
